ASANSÖR SEKTÖRÜNDE KALİTE ve GÜVEN

QUALITY AND CONFIDENCE IN ELEVATOR SECTOR
QUALITÉ ET CONFIANCE DANS LE SECTEUR DES ASCENSEURS

1988 yılında kurulmuş olan, asansör üretim sektörünün öncü firmalarından Bulut Makina, bugün 9.000 m2 fabrikasında %100 lazer kesim teknolojisiyle asansör komponentleri üretimine devam etmektedir. Üretimin yanı sıra Dünya'nın onde gelen Asansör komponent markalarının da distribütörlüğünü yürütmektedir. 1995 yılında Fermator otomatik kapıları ve 2000 yılında GMV hidrolik üniteleri ile başlayan seriye 2010 yılında Sicor Asansör makinaları ve daha sonra da Xinda dişlisiz makinalarını eklemiştir. Bunlara ilave olarak 2019 yılında Sunrise asansör raylarında distribütörlüğünü yürütmektedir. Bulut Makina yurtiçinde ve yurtdışında paket asansör ve hertür asansör malzemesi satışında sektördeki öncü firmalardandır. Bulut Makina, asansör sektöründekalite ve güvenilirliği temsil etmesinin yanı sıra, üretimde kullanılan malzeme kalitesi, "lego tipi" üretim bandı ve montaj tekniği, müşterisine sunduğu geniş ürün yelpazesiyle, müşterilerin özel projelerine akılcı çözümler getirmektedir. Konusunda uzman geniş bir mühendis kadrosuyla çalışmakta olan Bulut Makina satılan her ürünün satış sonrası teknik desteğini verebilecek tecrübeli teknik kadroyu da bünyesinde barındırmaktadır.

Bulut Makina which is a pioneer in elevator manufacturing sector and established in 1988 recently continues its production with 100 % laser-cut technology in its 9.000m2 factory. Besides production, Bulut Makina has distributorship of many world famous elevator component producers. Bulut Makina has distributorship agreement with Fermator automatic doors since 1995, with GMV hydraulic components since 2000, with Sicor elevator machines and Xinda gearless machines since 2010. At last, Bulut Makina is the distributor of Sunrise elevator guide rails since 2019. Bulut Makina is one of the leader companies in Turkey supplying complete lift packages as well as all kinds of lift components in local and international markets. Bulut Makina which represents the quality and reliability in the lift market, by its product quality, technical experience, "lego type" production line and it can offer reasonable solutions for customers' special projects. Bulut Makina is able to give all technical and after sales support of all kind of sold products by its experienced technical and engineering staff.

Bulut Makina, pionnier dans le secteur de la fabrication d'ascenseurs et créé en 1988, poursuit récemment sa production avec une technologie 100 % découpée au laser dans son usine de 9000 m2. Outre la production, Bulut Makina est distributeur de nombreux producteurs de composants d'ascenseurs de renommée mondiale. Bulut Makina a un accord de distribution avec les portes automatiques Fermator depuis 1995, avec les composants hydrauliques GMV depuis 2000, avec les machines d'ascenseur Sicor et les machines sans engrenage Xinda depuis 2010. Enfin, Bulut Makina est le distributeur des rails de guidage d'ascenseur Sunrise depuis 2019. Bulut Makina est l'un des entreprises leaders en Turquie fournissant des ensembles d'ascenseurs complets ainsi que toutes sortes de composants d'ascenseurs sur les marchés locaux et internationaux. Bulut Makina qui représente la qualité et la fiabilité sur le marché des ascenseurs, par la qualité de ses produits, son expérience technique, sa ligne de production "de type lego" et peut offrir des solutions raisonnables pour les projets spéciaux des clients. Bulut Makina est en mesure de fournir tout le support technique et après-vente de tous les types de produits vendus par son personnel technique et d'ingénierie expérimenté.

Bulut Makina olarak otomatik kapı alanında yılların getirdiği tecrübe sonucunda 2009 yılında kendi markamız olan MB ile otomatik kapı üretimine başladık. Öncelikli hedefimiz piyasada yoğun olarak üretilmeyen serilerin pazara sunulmasıydı. Bu amaçla öncelikle ürün yelpazemizi 600 mm'den 6000 mm'ye kadar çok geniş tuttuk. Bunun yanı sıra standart, ince, ekstra ince ve ağır hizmet-yoğun trafik serileri ile de farklı otomatik kapı uygulamaları için farklı çözümler ürettik

We have started automatic door production in 2009 under our own brand MB as a result of our experience in this field. Our primary target was to supply the products which were not supplied sufficiently to the market. As a result we planned our product range wide as from 600 mm to 6000 mm and developed several series for various automatic door applications. These are standart, thin, extra thin and heavy-duty series.

Grace à notre expérience acquise dans ce domaine, nous avons décidé de lancer la production de portes automatiques en 2009 sous notre propre marque MB. Notre premier objectif était de fournir des produits qui n'ont pas été suffisamment fournis dans le marché. En conséquence, nous avons développé notre gamme de produits allant de 600 mm à 6000 mm, ainsi que plusieurs séries pour diverses applications de portes automatiques. Voici les séries standard: mince, extra mince et robuste.

IP54

Müşterilerimizin özel projelerine uygun IP54 sertifikalı MB kapılarımız gerekli şartları sağlayacak şekilde üstün güvenlik önlemleri alınmış olarak sertifikalandırılmıştır. Bu özel kapımız toza ve belirli seviyede su sıçramasına karşı koruma sağlamaktadır.

Our IP54-certified MB doors, suitable for our customers' special projects, are certified with superior security measures in place to meet the necessary requirements. This special door provides protection against dust and water splashes up to a certain level.

Nos portes MB certifiées IP54, adaptées aux projets spéciaux de nos clients, sont certifiées avec des mesures de sécurité supérieures afin de répondre aux exigences nécessaires. Cette porte spéciale offre une protection contre la poussière et les projections d'eau jusqu'à un certain niveau.

IP (Ingress Protection) Ratings Guide

SOLIDS

	Protected against a solid object greater than 50 mm such as a hand.	1
	Protected against a solid object greater than 12.5 mm such as a finger.	2
	Protected against a solid object greater than 2.5 mm such as a screwdriver.	3
	Protected against a solid object greater than 1 mm such as a wire.	4
	Dust Protected. Limited ingress of dust permitted. Will not interfere with operation of the equipment. Two to eight hours.	5
	Dust tight. No ingress of dust. Two to eight hours.	6

INGRESS PROTECTION

IP
54

Rating Example:

WATER

1		Protected against vertically falling drops of water. Limited ingress permitted.
2		Protected against vertically falling drops of water with enclosure tilted up to 15 degrees from the vertical. Limited ingress permitted.
3		Protected against sprays of water up to 60 degrees from the vertical. Limited ingress permitted for three minutes.
4		Protected against water splashed from all directions. Limited ingress permitted.
5		Protected against jets of water. Limited ingress permitted.
6		Water from heavy seas or water projected in powerful jets shall not enter the enclosure in harmful quantities.

ASANSÖR KUMANDA VE BUTONİYER SİSTEMLERİ

LIFT CONTROL AND OPERATING SYSTEMS

COMMANDE D'ASCENSEUR ET SYSTÈME DE FONCTIONNEMENT

1993 yılında asansör kumanda sistemleri alanında üretim yapmak üzere kurulan Aybey Elektronik kuruluşundan itibaren yalnızca asansör elektroniğine odaklanmıştır. Güçlü Ar-Ge kadrosu sayesinde tümleşik asansör kontrol sistemi, asansör kumanda kartları, motor sürücü, asansör kumanda panoları, acil kurtarma sistemi, hazır tesisat sistemleri, kat-kabin butonierleri, filtre, manyetik şalter, erişim kontrol sistemleri ve anons sistemi gibi elektronik cihazların tasarımını ve üretimini tamamen kendi bünyesinde gerçekleştirmektedir.

Aybey Elektronik was established in 1993 to produce in the field of elevator control systems and since its establishment, it has focused only on elevator electronics. Thanks to its strong R&D staff, integrated elevator control system, elevator control cards, motor driver, elevator control panels, emergency rescue system, shaft pre-wiring systems, landing-cabin buttons, filters, magnetic switches, access control systems and announcement systems, etc. carries out the design and production of electronic devices entirely within its own structure.

Aybey Elektronik a été créée en 1993 pour produire dans le domaine des systèmes de contrôle d'ascenseur et depuis sa création, elle s'est concentrée uniquement sur l'électronique d'ascenseur. Grâce à son solide personnel de R&D, système de contrôle d'ascenseur intégré, cartes de contrôle d'ascenseur, actionneur de moteur, panneaux de commande d'ascenseur, système de secours d'urgence, systèmes de pré-câblage de gaine, boutons d'appel palier de cabine, filtres, interrupteurs magnétiques, systèmes de contrôle d'accès et systèmes d'annonce, etc. Elle réalise la conception et la production d'appareils électroniques entièrement au sein de sa propre structure.

HİDROLİK ÜNİTE VE EKİPMANLARI

HYDRAULIC UNIT AND EQUIPMENTS

CENTRALE HYDRAULIQUE ET EQUIPEMENTS

GMV güç üniteleri , hidrolik asansörlerde yolcuların en iyi seyir konforunu garanti etmektedir ve daha az yağ gerektirecek şekilde tasarlanmıştır. GMV geniş bir motor gücü yelpazesi(1,5kw'dan 58,8kw'ye kadar) , pompa akışı (25lt/dk'dan 600lt/dk'ya kadar) ve tank boyutlarıyla tüm hidrolik asansör uygulamalarına uygun olarak dizayn edilmiştir. Tüm GMV güç ünite tipleri geleneksel 3010 EN valf bloğuyla ya da çok gelişmiş elektronik valfler ile donatılmış olabilir. Her bir ünitenin testleri yapılmaktadır, böylelikle kusursuz bir güç ünitesi garanti edilir. Her bir valf bloğu en son kullanım şeklindeki parametrelere göre ayarlanarak kurulum aşamalarını ve şantiyedeki masrafı azaltır.

GMV power units are designed to ensure maximal travel comfort in hydraulic systems and allow a reduced quantity of oil in circulation. It is available with a wide range of possibilities in order to combine power (from 1,5kw to 58,8kw), capacity-pump flow (from 25l/min to 600l/min) and size, for meeting every demand. All GMV power units may be equipped with the traditional distribution 3010 EN valve block and with the more sophisticated electronic valves. By testing every power unit ,besides assuring the proper functioning of the power unit, a pre-calibration of the valve with parameters similar to its intended use, is carried out: the adjustments on-site will thus be simple and essential.

Les centrales hydrauliques GMV sont conçues pour assurer un confort de déplacement maximal dans les systèmes hydrauliques et permettre une quantité réduite d'huile est disponible avec un large éventail de possibilités afin de combiner puissance (de 1,5kw à 58,8kw), capacité-débit de la pompe (de 25l/min à 600l/min) et taille, pour répondre à chaque demande. Toute la puissance GMV les unités peuvent être équipées d'un bloc de valves de distribution traditionnel 3010 EN et des valves électroniques plus sophistiquées. En testant chaque groupe moteur, en plus de s'assurer du bon fonctionnement de la centrale hydraulique, un pré-calibrage de la valve avec des paramètres similaires à son utilisation prévue est effectué : les réglages sur site seront ainsi simples et essentiels.

ASANSÖR MAKİNASI

LIFT MACHINE

MOTEUR D'ASCENSEUR

1982'de asansör sektöründen bir grup girişimci tarafından, insan ve yük asansörleri için yüksek kaliteli asansör makineleri üretmek amacıyla kurulan Sicor S.p.A, Rovereto - İtalya'daki üretim tesisinde tüm sistemler için emniyeti sağlayan ve teknolojik çözümler sunan redüktörlü ve dişlisiz elektrikli asansör makina sistemleri üretmektedir.

Bulut Makina, 2010 yılından itibaren Sicor Asansör Makinaları'nın Türkiye tek yetkili distribütörlüğünü yürütmektedir.

Sicor S.p.A. founded with a precise mission to produce high quality elevator traction machines for persons and goods by a group of entrepreneurs in the elevator segment in 1982, manufactures a complete range of gears and gearless elevator traction systems presenting technologic solutions and ensuring the safety for all types of system at its production plant in Rovereto - Italy.

Bulut Makina is solely Turkey distributor of Sicor S.p.A. traction machines since the year of 2010

Sicor S.p.A. a été fondée pour une mission précise: produire des machines de bonne qualité pour les ascenseurs de personnes et de Marchandises. Un Groupe d'entrepreneurs dans le secteur des Ascenseurs décide en 1982, dans leur usine de production à Rovereto en Italie, de produire une gamme complète de système d'ascenseur Geared et Gearless tout en offrant des solutions technologiques en plus d'assurer la sécurité pour tout types de système

Bulut Makina est l'unique Distributeur de Sicor S.P.A en Turquie depuis 2010

RAILS DE GUIDAGE POUR ASCENSEUR

Tianjin Sunrise, fondée en 2006, a réussi à répandre sa qualité dans le monde en peu de temps et a travaillé avec de nombreuses entreprises distinguées, à la fois mondiales et locales, dans de nombreux pays. Elle produit des rails d'ascenseur de haute qualité et fabrique des produits avec une précision appropriée jusqu'à une vitesse de 21 m/s avec des rails de type B, BE et BE+. Elle détient une forte part de marché dans le monde, notamment dans la production de rails d'ascenseurs à grande course.

RAILS DE GUIDAGE POUR ASCENSEUR

Ningbo Xinda, 1972 yılından bu yana asansör sektöründe dünyanın önde gelen üreticilerinden biridir. 300.000m² üzerinde üretim tesisine ve 10m/s hızda makinaları test ettiği 165m test kulesine sahip olan Xinda, dişli ve dişlisiz makineler, yürüyen merdivenler, kapı sistemleri ve tahrik çözümleriyle 80'den fazla ülkeye ihracat yapmaktadır. Bulut Makina olarak satmış olduğumuz yüksek kalite dişlisiz makinaları en rekabetçi fiyatlarla sizlere sunmaktayız. Mini5 ve WYJ140 yanına 6,5mm halat çapına uygun Ruban C modeli de envanterde bulunmaktadır.

Ningbo Xinda has been one of the world's leading manufacturers in the elevator industry since 1972. With over 300,000 m² of production facilities and a 165-meter test tower capable of testing machines at speeds up to 10 m/s, Xinda exports geared and gearless machines, escalators, door systems, and drive solutions to more than 80 countries. As Bulut Makina, we proudly offer Xinda's high-quality gearless machines at the most competitive prices. In addition to the Mini5 and WYJ140 models, the Ruban C model suitable for a 6.5 mm rope diameter is also available in our inventory.

Ningbo Xinda est l'un des principaux fabricants mondiaux dans le secteur des ascenseurs depuis 1972. Avec plus de 300 000 m² d'installations de production et une tour d'essai de 165 mètres permettant de tester des machines jusqu'à 10 m/s, Xinda exporte des machines avec ou sans engrenage, des escaliers mécaniques, des systèmes de portes et des solutions d'entraînement vers plus de 80 pays. En tant que Bulut Makina, nous proposons fièrement les machines sans engrenage de haute qualité de Xinda aux prix les plus compétitifs. En plus des modèles Mini5 et WYJ140, le modèle Ruban C adapté à un diamètre de câble de 6,5 mm est également disponible dans notre inventaire.
